

## Custom Builds and Scene Shop Rental

Northlight Theatre offers a versatile building space to rent for building scenery and props for stage, screen, or installation. The space can be rented by local businesses, nonprofits, or theatre companies.

Northlight Theatre also offers a skilled staff available for hire to build and paint your scenery or installation.

All Scene Shop rentals and build services are dependent on the scheduled work of Northlight Theatre. The work of staff painters, carpenters, and the Technical Director is contingent upon their availability.

Scene shop resources include:

- A build area of roughly 1760 square feet, depending on the current show needs and the configuration of the shop floor.
- A loading dock door which has a width of 10' 5"
- A paint deck measuring 1350 square feet (30' x 45')
- A Delta 10" tilting Table Saw
- A bench-mounted DeWalt 12" double bevel sliding compound mitre saw
- An air compressor and full-shop hose access for pneumatic tools

Northlight's scene shop and staff can be secured for builds related to:

- Television, Film, and Photography
- Regional and Professional Theatres and Opera
- Community Theatres
- Schools, Universities, and Colleges
- Corporate and Not-for-Profit Events

Rates may vary depending upon the requirements for the build, including but not limited to the amount of space required, tool use, and the use of Northlight Staff time to complete the project.

Please send all scene shop rental inquiries to [nltsceneshop@northlight.org](mailto:nltsceneshop@northlight.org). Please include any relevant design and budget information, as well as important dates and deadlines. Please allow up to three business days for a response.

The Northlight Scene Shop is open Monday - Friday from 8:30am - 4:30pm
